

Vision Statement

Create connections, inspire learning for life, placing children at the heart of our practice, hearing their voices.

Mission Statement

To be the voice for our children, providing an inclusive, respectful, unique, high quality early childhood service for families and our communities.

Connections: We value the connections and relationships we build, with children, families, our team and in our local community.

Children: Each child is unique and are active participants in their learning, global citizens for the future.

Learning: We believe in learning through play, committing to quality.

Nature: Connecting. Exploring and appreciating nature, and the environment indoors outdoors and beyond the gate.

Inclusive: We foster diversity, embracing and advocating for the rights of every child.

Risk: We encourage and support risk taking where children develop persistence and resilience.
